About me I am a software engineer keen on software design and new technologies. I am most familiar with the Java world, but I enjoy exploring other programming platforms, too. I love building great applications. I also like to read and learn about all other aspects of software engineering, besides programming itself.

You can find me at LinkedIn, Stack Overflow and GitHub.

Experience

Jun 2015 - current, Java Developer at Seznam.cz
Working on Robot, the web crawling component of the fulltext search engine.

Jun 2014 - Apr 2015, Java Developer at Casenet, LLC
Working on the external API of TruCare, an enterprise-level care management system, used by large US health maintenance organizations.

Feb 2011 - May 2014, Java Developer at X-Center
Working on an ECM solution used by many large hospitals, insurance companies, etc. from around the world.

Mar 2010 - Nov 2010, Web Developer at Fox Media
Working on web applications to support marketing campains of big companies, such as Lenovo, HP or Jemča.

Education

2011 - 2014
M.S in Software Engineering at the Faculty of Mathematics and Physics, Charles University in Prague
Master Thesis: Generating of Synthetic XML Data

2008 - 2011
B.S. in Computer Science at the Faculty of Mathematics and Physics, Charles University in Prague

Skills

Java
Java, Spring, Hibernate, Groovy, Wicket, JUnit/Mockito, Log4J,

Distributed Computing
HDFS, Hadoop Map-Reduce, HBase, Apache Spark

Web Technologies
PHP, Nette, SQL, MongoDB, HTML, CSS, JS, JQuery,

Other Technologies
UML, XML (DTD, XSD, XSLT, XPath, XQuery), Design Patterns,

Versioning Systems
SVN, Git,

Build Tools
Maven, Ant,

Languages
Czech (native speaker), English (fluent), German (basic).
